You're Next

Stuck on Your UI/UX Journey?

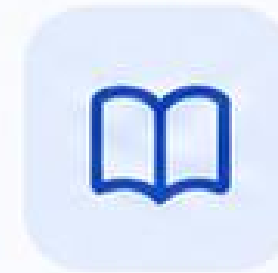

You're not alone. Many aspiring designers face the same challenges. But the good news is — we have the right solution for you.

**Let's Turn Your
Confusion into a Career.**

How We Solve It

A complete 4-month program designed to take you from confusion to a job-ready UI/UX designer.

Clear Learning Roadmap

Follow a structured 4-month curriculum with step-by-step guidance. No more confusion about what to learn next.

Real-World Projects

Work on practical and live projects with mentor support to build job-ready skills and a strong portfolio.

Personal Mentorship

Get personalised feedback on your work, portfolio and career goals from industry experts.

AI-Powered Learning

Learn how to use AI tools like ChatGPT, Gemini and other AI solutions in every stage of your UI/UX workflow.

Portfolio, Resume & LinkedIn Support

Build a standout portfolio, get your resume and LinkedIn profile optimised to attract recruiters.

Job Search & Interview Preparation

Learn how to find the right opportunities, apply strategically and crack interviews with confidence.

- Mock Interviews + Practical Assignments

Every Month = Learn + Practise + Build + Use AI

Not just theory.
Not just Figma.
Not just recorded lessons.

01

Learn

Understand the concept with structured lessons, industry insights and real examples.

02

Practise

Apply what you learn through hands-on exercises and design challenges.

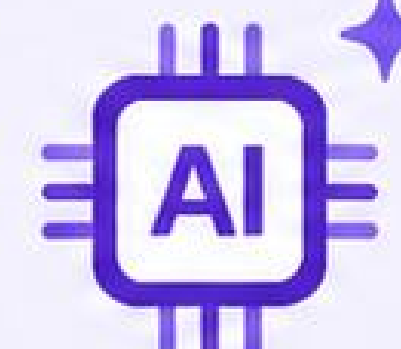

03

Build

Work on real-world projects and case studies to create portfolio worthy work.

04

Use AI

Leverage AI tools to ideate, research, design faster and improve your workflow.

05

Get Feedback & Grow

Receive mentor feedback, refine your work and build confidence.

Repeat Every Month. See Real Progress.

You **learn** the concept → **apply** it to a practical problem → **use AI** to improve your workflow
→ **get mentor feedback** → **build** work for your portfolio.

Skills Today.
→ Better Opportunities
Tomorrow.

How I Help You

Practical. Personal. Career-Focused.

Learn what actually matters

Real industry knowledge,
not just theory.

Work on real projects

Apply your learning and
build practical experience.

Get personalised feedback

Know what’s working,
what to improve and why.

Build stronger case studies

Learn how to explain your
process and design decisions.

Use AI in your design workflow

Learn AI tools for research,
ideation, UX, content and
productivity.

Create a professional portfolio

Turn your projects into
work you can confidently
present.

Prepare for the job market

Resume, LinkedIn,
job search strategy and
interview guidance.

Get career guidance

Practical advice to help
you start or grow your
career in UI/UX.

My Goal for You

I don’t want you to just finish a course. I want you to think like a real designer,
build real experience, create a strong portfolio and feel confident to step into the industry.

*Your Growth
is the Goal*

Real Students. Real Journeys.

Different backgrounds.
Same goal — a career in UI/UX.
Here's what my students have
to say about their experience
with OTA Educator Hub.

*Your Success
is What Matters*

*Real People.
Real Progress.*

Sachin
UI Designer

“

I was working in a non-design role and had no design background. Rajat's guidance and the practical projects helped me build real skills and confidence. I'm now working as a UI Designer!

At a Product
Company (Bengaluru)

Sonia
UX Researcher

“

The course structure is very practical and easy to follow. Portfolio reviews and mock interviews really helped me prepare for real opportunities. I got placed within a few months of completing the course.

At a SaaS Company
(Remote)

Diya
Product Designer

“

I loved how the course focuses on real-world projects. The feedback sessions were super helpful and gave me clarity on what recruiters look for. I'm now working as a Product Designer!

At a Digital Agency
(Mumbai)

Shiv
Junior UI Designer

“

Rajat's mentorship made a big difference. He explains things in a simple way and gives honest feedback. The job support and interview prep helped me land my first UI/UX job!

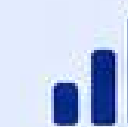

At an EdTech Company
(Delhi)
